

Publications by Herzel Laor:

1. H. Laor. New Optical Switch Development. 7th European Conference on Optical Communications, ECOC-81, Copenhagen, Denmark, September, 1981.
2. H. Laor. Performance Characteristics of Sixteen Channel Optical Switch Using Directable Light Beams. OSA/IEEE, Fifth Topical Meeting on Optical Fiber Communications, OFC-82, Phoenix, AZ, April, 1982.
3. H. Laor. Optical Switching Using Piezoelectric Driven Beams for Fiber-to-Fiber Coupling. Optical Society of America Topical Meeting on Optical Fiber Communications, OFC-83, New Orleans, LA, February, 1983.
4. H. Laor. Fiber-Optic Switches: New Developments for New Applications. Telecommunications, May, 1985, p. 54.
5. J. A. Chiddix, D. M. Pangrac and H. Laor. Fiber Backbone: Multichannel AM Video Trunking. Communication Technology, December, 1989, p. 38.
6. H. Laor. Laser Structure for AM Transmission - Today and Tomorrow. Society of Cable Television Engineers, Fiber Optics 1990 Conference, Monterey, CA, March, 1990.
7. H. Laor. Testing Fiber Systems with Simulated Video Modulation. Communication Engineering and Design, July, 1990, p. 66.
8. J. A. Chiddix, H. Laor, D. M. Pangrac, L. D. Williamson and R. W. Wolfe. AM Video on Fiber in CATV Systems: Need and Implementation, IEEE Journal of Selected Areas of Communications. September, 1990, p. 1229-1239.
9. H. Laor and R. Wolfe. Fiber Optics in CATV Networks. SPIE Conference: Fiber Optics in the Subscriber Loop, San Jose, CA. September 1990, Paper #1363-14.
10. L. Williamson, D. Wolfe and H. Laor. Effects of Chromatic Dispersion on Analog Video Transmission, SCTE Fiber Optics 1991, p. 177-183.
11. H. Laor. Fiber Couplers for FTF CATV Systems. Fiber Optics Guide: A Special Supplement to CED Magazine, March 1991, p. 30-37.
12. J. Rice and H. Laor. Reconfigurable Segmentation and Subnetworking for All-Optical Transmission using an Optical Cross-Connect. SPIE - The International Society of Optical Engineers, Engineering Conference, Philadelphia, October 1995.
13. D. Krozier and H. Laor. A MicroElectroMechanical Optical Switch Element. NFOEC '96. September 1996. P. 1055-1061.
14. M. Young, H. Laor and E. Fontenot. First In-Service Network Application of Optical Cross-Connects. Post-deadline paper. OFC-98, San Jose, California, February 1998.
15. H. Laor. MEM Mirrors Application in Optical Cross-Connect. Invited paper. Invited paper, IEEE/LEOS Summer Topical Meetings – Optical MEMS. July 1998, Monterey, California.
16. E. J. Fontenot, M. Young and H. Laor. First Application of Optical Cross-Connects in Telecommunications Network. NFOEC '98 Conference, September 1998, Orlando, Florida.
17. H. Laor. Putting Bose-Einstein Condensate to the Test. Letter to the Editor, Laser Focus World, April 1999, P. 67.
18. H. Laor. Bose Einstein Condensate as Fuel for Nuclear Fusion. Letter to the Editor, Fusion Technology, May 1999, Vol. 35, No. 3, P 370-371.
19. H. Laor, A. Richards and E. Fontenot. 576x576 Optical Cross Connect for Single-Mode Fibers. AMTC '99 Conference, San Diego, California. July 18-22, 1999.
20. H. Laor, J. D'Entremont, E. Fontenot, M. Hudson, A. Richards, D. Krozier. Performance of a 576x576 Optical Cross Connect. NFOEC '99, Chicago, Illinois, September 1999.
21. H. Laor. Construction of a 576x576 single-Stage OXC. Invited paper, IEEE/LEOS annual meeting, San Francisco, California, November 1999.

22. A. Dewa, J. Orcutt, M. Hudson, D. Krozier, A. Richards, H. Laor. Development of a Silicone NxN Micromirror for Optical Cross-Connect Switches. Solid-State Sensor & Actuator workshop. Hilton Head, South Carolina. June 2000.
23. Division of Black Hole Creates New Universe. American Journal of Scientific and Industrial Research. Vol. 7, Issue 4, August 2016, pp. 95-97.

Publications about technology developed by Herzel Laor:

1. Joel Bainerman. Piezoelectrics switch Optical Signals. Lasers & Applications. December 1984, P. 49-51.
2. Piezoelectric Switch for Optical Signals. Communications Systems Worldwide, February 1985, p. 14.
3. A. Fagotti, R. Ravaglia. Application and Experiment of an Opto-Mechanical Switch for Multimode fibres. MELECON '87, Rome, Italy, March 1987.
4. F. Dawson. Will Video Applications Precede Telephony with Optic Switch. Lightwave, July 1988, p. 1.
5. J. Duffy. McDonnell Douglas Uses Optical Matrix Switch to Test Space Link. Network World, July 20, 1992, p. 11.
6. K. Garrett. Photonic Matrix Switching Applications. Fiber optics Products News, February 1993.
7. R. Brooks. Space Age switching. DEC Professional, June 1993.
8. E. Messmer. Astarte Unveils Switch for ATM, FDDI, LAN Links. Network World. August 22, 1994.
9. K. M. Taylor. Matrix Switch Makes Light of Optical Transmission. Data Communications, October 1994, p 113-114.
10. K. Garrett. Optical Switch Benefit ATM Network Capacity, Efficiencies and Cost. Lightwave, February 1995.
11. K. Garrett. Cross Connect Allow Fiber Monitoring. America's Network, April 15, 1995. P. 46-49.
12. K. Garrett. Network Management Using Optical Matrix Switching. Fiber optics Products News, November 1995.
13. J. Rice. The Information Highway is Built for Speed. Telephony, December 11, 1995.
14. C. Symons, K. Garrett. Optical Matrix Switches Dynamically Access Network Resources. Lightwave, February 1996.
15. L. Wirbel. New Use for TI's Technology Micromirror Switch. Electronic Engineering Times. September 23, 1996 p. 150.
16. L. Bersiner, J. Koeppen, H. Lausen, G. Neumann, H. Tiltmann, J. Weber. Demonstration of an Optical Crossconnect System with Life Signal Transmission and Automatic Protection Switching. Post deadline paper, European Conference on Networks & Optical Communications NOC'97, Antwerp, Belgium. June 17-20, 1997.
17. Jim Kercheville. NASA's Dryden Flight Center – Case Study. Network Magazine, November 1997, p. 101-104.
18. Stephen Hardy. Editor. Soliton transmission, optical crossconnects advance optical networking. Lightwave Magazine, April 1998, p. 1,18,20.
19. Hassaun Jones-Bay, Senior Editor. Optical Switches Pursue Crossconnect market. Laser Focus World, May 1998. p. 153-162.
20. G. Stix. Nothing but Light. Scientific American, December 1998, p 17-20.
21. LightPath Technologies, Inc. Acquires Rights to New Fiberoptic Switch Products. <http://www.light.net/NMhtml/NMPRLCr55.htm> January 5, 1999

22. D. Krozier and A. Richards. Optical Switch Demos in Cross Connect. Electrical Engineering Times, May 31, 1999, p. 80.
23. R&D News. US partners claim breakthrough in cross-connect technology. FiberSystems, June 1999, p. 14.
24. Richard Boston. Cross Connecting. Texas Instruments - Attleboro newsletter June 1999 p. 1.
25. Robert Pease. All-Optical Equipment emerging from the lab to the marketplace. Lightwave Magazine, June 1999, p. 1,28,30.
26. US partners claim breakthrough in cross-connect technology. FiberSystems, June 1999, p. 14.
27. Daniel McCarthy. Optical Cross-Connect Reduce Loss. Photonics Spectra, September 1999, p. 36.
